

Elm Court School

Accessibility Plan

3-year period covered by the plan: 2016 - 2019

Plan agreed: September 2016

Plan Review: September 2019

Lead member of staff: Joanna Tarrant – Headteacher

The SEN and Disability Act 2001 extended the Disability Discrimination Act 1995 (DDA) to cover education which has now been replaced by The Equality Act 2010. The Governing Body has had three key duties towards disabled pupils, under the Equality Act:

1. not to treat disabled pupils less favourably for a reason related to their disability;
2. to make reasonable adjustments for disabled pupils, so that they are not at a substantial disadvantage;
3. to plan to increase access to education for disabled pupils.

This plan sets out the proposals of the Governing Body of Elm Court School to increase access to education for disabled pupils in the three areas required by the planning duties in the Equality Act:

- a) increasing the extent to which disabled pupils can participate in the school curriculum;
- b) improving the environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services;
- c) improving the delivery to disabled pupils of information, which is provided in writing for pupils who are not disabled.

It is a requirement that the school's accessibility plan is resourced, implemented, reviewed and revised as necessary and reported on annually. Attached is a set of action plans showing how the school will address the priorities identified in the plan.

The School's Context

We are a special school for pupils aged 9-19 years with learning difficulties with associated social and communication needs. Many young people in Elm Court also have Autism. The school was refurbished under BSF and therefore compliant with legislation. It comprises of three buildings mostly of one or two storey construction. Each building has automatic doors for pupils' entrance with ramp access at the main entrance. Each building is equipped with a lift has a lift.

School is committed to offering an inclusive curriculum to ensure the best possible progress for all of our pupils whatever their needs or abilities. Not all

pupils with disabilities have special educational needs and not all pupils with SEN meet the definition for disability. This Accessibility Plan covers all of these pupils.

This Single Equality Scheme explains and responds to our statutory duties to promote equality in all areas identified as protected characteristics in the Equality Act (2010).

If a pupil qualifies for admission to the school by reason of their special educational needs, the school undertakes to facilitate their education at the school. All pupils have access to a broad and balanced curriculum and are encouraged to participate in the life and work of the school to the best of their abilities.

The Accessibility Plan shares objectives with the Elm Court School Equality Policy and Elm Court School Special Educational Needs and Disability Report and should be read in conjunction with these two documents.

This Accessibility Plan exists to ensure that we fulfil our vision of wide-ranging opportunities for all where “every learner matters”.

We aim to:

- Ensure that the needs of our pupils needs are met
- Ensure that our pupils are able to join in with all the activities of the school
- To ensure that all learners make the best possible progress
- To ensure that parents are informed of child’s progress and that there is effective communication between parents and school

The specific areas covered by the accessibility plan that need to be included are: -

Increasing the extent to which disabled pupils can participate in the school curriculum.

Governors should identify action in the school access plan to enhance teaching and learning opportunities for all those in the school community with disabilities.

These may include:

- Consideration of whole-school ways of increasing participation in activities such as after-school clubs, leisure and cultural activities, as well as out-of-school visits, particularly for difficult-to-include pupil groups, such as those with physical or behavioural challenges.
- How threats to participation have been analysed using risk assessment proforma and action taken to reduce those identified risks.
- Identifying how classroom support arrangements, such as deployment of teaching assistants, provision of ICT, contribute to, and enhance learning opportunities.

- Deciding how the implementation of specific strategies such as flexible or shared timetabling, nurture groups, counselling provision, access to therapy, first day absence response, have enhanced attendance and participation
- Consideration of how classroom/group organisation has been targeted to ensure that all pupils achieved increased levels of school success.
- Description of action to increase curriculum choice and/or flexibility has enhanced the access to appropriate qualifications/attainments.
- Consideration of the school response to pupils through the application of the SEN Code of Practice has improved pupil attainment and how effective communication regarding specific pupil needs has been achieved and is monitored.
- Consideration of how liaison, increased communication and relationships with external agencies has supported and enhanced pupils' access to the curriculum and how this is monitored and improvements targeted.
- Identifying how staff training needs in order to effectively meet the diverse abilities and disabilities of all pupils, including prospective pupils who may require manual handling, signing, personal hygiene support etc, has been identified and supported.
- Identifying pupil peer support mechanisms and the ways that the school has ensured pupils have a voice in decisions that affect them.
- Taking action to ensure that disabled members of the school community are seen in a positive light through publications promoting disability and providing positive role models of adults with disabilities to encourage success and achievement
- Ensuring that action has been undertaken to ensure that parents and carers see themselves as partners in their children's education and are increasingly willing to actively support their children's education.
- Enhancing the positive culture and ethos of the school by undertaking quality marks or other additional intervention to improve the schools ability to include those with disabilities.

Improving the physical environment of the school to increase accessibility for members of the school community with disabilities.

The Governing Body will want to consider and record reflection upon all areas of the physical environment such as:

- Changes to improve access to doors, stairs, toilet, changing facilities, and consideration of the impact of signs, colour schemes, lighting, heating etc.
- Changes outside of the school building e.g. provision of disabled parking etc.
- Management and organisation issues such as maintenance of lights, fire alarms appropriate to those with hearing impairments etc.
- Increased access to and maintenance of, auxiliary aids, ICT apparatus such as computer hardware/software.
- Improvement to the acoustic environment that might include installation of soundfields/hearing loop systems.

- Improvements of storage implications for wheelchairs and other mobility devises.

Access to information

Schools are expected to increase access to information to those with disabilities. The Governors may wish to decide how this is to be achieved by:

- Informing readers that school published material is available in a selection of formats e.g. Braille, Makaton, audio tapes and identifying how they can access this provision if requested.
- Considering how to increase information accessibility for those who have English as an additional language or other communication impairments, at school meetings etc.
- Identifying how they have considered the readability of information including that provided by the school website, and how it is monitored to ensure accessibility to a wide range of diverse needs and abilities.
- Identifying how textbooks and other pupil information are selected and provided to meet a diversity of pupil need.
- Ensuring the monitoring of effectiveness of adult support to enhance the opportunities for pupils/parents/carers who have difficulties in accessing information.

Monitoring the success of the plan:

Governors will be required to comment on the accessibility plan and identify any revisions as necessary.

Evaluation that may be useful to judge success may include:

- Success in meeting identified targets.
- Changes in physical accessibility of school buildings
- Questionnaires, responses from stakeholders e.g. parents, pupils and staff, indicate increased confidence in the schools ability to promote access to educational opportunities for pupils with disabilities.
- Improved levels of confidence in staff in reducing the obstacles to success for pupils with additional needs.
- Recorded evidence that increased numbers of pupils with disabilities are actively participating in all areas of the school
- Recorded evidence that fewer pupils are being excluded from school opportunities as their needs are being more effectively addressed through the application of strategies and procedures.
- Increased levels of achievement for pupils with disabilities.
- Pupil responses; verbally, pictorially and written that indicate that they feel themselves to be included.
- Ofsted inspections identify higher levels of educational inclusion.
