October 2026 to April 2027

Edition 1 — Published October 2026

Next edition to be published December 2026

How to use this timetable

What this is

Transition and preparing-for-adulthood events running in Lambeth across the 2026/27 school year, in date order — open days, careers events, information sessions for parents and carers, and supported internship events.

It is for families and for the people who support them. Use it to plan ahead, to find the right event at the right moment, and to line events up with transition reviews from Year 9 onwards.

A first collection

This is the first collection for the year. The timetable is updated every half term, so expect more events — particularly in the spring and summer terms.

Before you go, or send a family

- **Check the booking line.** Some events need booking in advance, some are drop-in, and some are open only to families already at that school or college — those are marked **Own students and families only**.
- **Ring ahead if anything says “to be confirmed”.** A few events have a month but not yet a day, and some booking arrangements were still being settled. Those events sit at the end of their month, and the contact in the last column is the person to ask.
- **Some events have already happened.** They are kept in so you can see the pattern of the whole year and plan for the next one.

Add an event

Organisers can add an event, or correct one, using the form at tiny.cc/rvub101 — one event per submission.

Anything else, email SENDlocaloffer@lambeth.gov.uk.

Find more on the SEND Local Offer

The SEND Local Offer is the single place to find SEND services, support and activities across Lambeth — including these events and much more.

lambeth.gov.uk/SEND

Running an event? Add it

One event per submission, at tiny.cc/rvub101

The timetable is rebuilt from those submissions every half term, so anything added now appears in the next edition.

Accessibility

Tagged for screen readers, with selectable text, live links and a properly marked-up table. All colour combinations meet WCAG 2.2 AA contrast, and the focus letters carry the meaning as well as the colour. Large-print, easy-read and community-language versions are available on request.
